Aroma Factory Kuwait

Corrugated Flexible Conduit

We are the pioneers in manufacturing flexible corrugated pipes in Kuwait. Our mission at aroma factory is to deliver the most attentive customer service imaginable, produce the highest quality products and to offer the quickest turnaround, all at a fair price. We accomplish this by utilizing local talent to supply expertise in all the markets we serve. With innovation and technical advancement at its core, the company continually introduces cutting-edge products in its entirety to maintain the position of leadership.

Our Aim

Our team is constantly on their toes to keep in line with the new upcoming trends in the market with available resources. Our production capacity combined with our customer-focused delivery schedules; enable us to provide our clients with complete solutions to meet all their project requirements.

Our Business

We are a leading manufacturer and exporter of a wide range of Flexible Conduits and Conduit Accessories. Established in the year 2015, Flex Tubes is a leading manufacturer and exporter of Flexible Conduits and Accessories. All our endeavors are directed towards achieving complete customer satisfaction, which helps us in executing our business operations efficiently and more effectively.

Our Team

The team of talented professionals employed by us strives to meet the organizational goal of quality products and maximum client's satisfaction with utmost perfection. We are backed by an advanced Packaging & Logistics facility that enables us to deliver our range of products safely and in promised time to our clients. Our organization is open to new ideas, product development, and developing sophisticated production techniques.

Quality Engineered Solutions Corrugated Flexible Conduit

Flexible corrugated pipe used for technical pipe applications in construction, automotive electrical & many more.

- Made from first quality virgin HDPE and LLDPE granules.
- Various sizes: 16mm, 20mm, 25mm, 30mm 38mm and 50mm diameter.
- Available in variable length as per requirement.
- Variety of colors to choose from.
- Production capacity 5 lakh meter per month.

Material Supply

Corrugated Flexible Conduit

Description

Corrugated flexible pipes have excellent flexibility with high ring hardness and thereby provide resistance to crushing, and make it possible to install them at considerable depth. Product have low bending. These pipes are characterized by low weight, rendering the handling, carrying and laying operations, easy and cost effective. Product availability in continuous length helps in minimizing the use of fittings. Being none corrosion and protected to most of the corrosive chemicals.

Product Feature

Leakage proof, Optimum flexibility, Chemical resistance, Temperature resistant.

Working Temperature

10°C/75°C, withstand temperature (temporarily) up to 85°C.

Specification

16mm, 20mm, 25mm, 32mm, 40mm and 50mm diameter.
Available in variable length as per requirement.

Our Products

We supply high quality products like Pipes - CS, SS, GI, UPVC, PVC ETC, Pipe Sleeves, Flanges, Reducer, Weldolets, Elbows, Tee & couplings, Valves - Globe Valve, Ball Valve Etc. as our vendor requirements.

Applications

Corrugated Flexible Conduit demonstrates a very high degree of mechanical strength. Paired with enhanced fire retardant characteristics and minimal smoke development, it is ideal for use in static applications, the mining industry as well as heavy-duty machinery and equipment manufacturing. Constantly listening the customers to ensure the sustainable improvement of their satisfaction. Automotive, high mechanical (static) and dynamic) stress environment, body industrial cable protection, robotics industry, apparatus engineering, mechanical engineering, control panel engineering, telecommunication. Also used for sanitary works in houses, showrooms, buildings, shops, and many other places.

Raw Material

- Made from first quality virgin HDPE EGDA 6888 (EQUATE).
- Production capacity fifteen thousand meter per day.

Colors and Make

- White, Black and other custom colors upon requirements.
- Exclusively made in Kuwait.

Mechanical Works

Our Services

Our machine shop is equipped with its procession machinery mainly makes all types of Helical gear, bevel gear and spur gear. We also make all types and sizes of Anchor bolt, J bolt, L bolt, U bolt and all types of procession machine work.

Shop Facility

- Lathe Machine,
- Milling Machine,
- Slotting Machine,
- Drilling Machine,
- Shaper Machine.

Our Features

- 100% Guaranteed Products,
- On Time Delivery,
- Approved KOC/KNPC Materials,
- High Inventory,
- Orders Taken As Large/Small Scale,
- Production Capacity 15,000 Meters per day.

Infrastructure

Our production unit is equipped with latest machinery, which assists us in meeting appreciable production rate

CLIENTS

Clients

A list of our Clients

We are a leading manufacturer of a wide range of Flexible Conduits and Conduit Accessories. These are designed in conformation with international quality standards and are appreciated for dimensional accuracy and perfect finish.

Clients List

- ALGHANIM INTERNATIONAL
- HEISCO
- INDEX CO.
- AHLEIA ELECTRICAL CO.
- AL-SHAMALI & WARIS CO.
- WIRE CONTROL ELECTRICAL CO.
- ATLAS ELEVATOR COMPANY
- GULF SYSTEMS COMPANY
- GENERAL CONTROL GROUP COMPANY
- MOON STAR
- INDUS CENTER
- AL MUBARAKIYA KANDARI
- STAR AL-MAIDAN
